

# WORX STYLE #5171 WOMEN'S ANTIMATTER ATHLETIC

ELECTRICAL HAZARD

ALUMINUM TOE

PUNCTURE RESISTANT

SLIP RESISTANT

Made to fit a woman's foot and purpose-built to perform on oily, wet surfaces, this light-duty, CSA-approved, slip-resistant work shoe combines best-in-class puncture resistance underneath with an athletic design up top. The PU-coated leather upper allows for easy cleaning, while the EVA midsole and removable footbed provides superior underfoot comfort. An aluminum safety toe and electrical hazard protection provide further peace of mind. The CrossGrip outsole incorporates large lugs in a unique pattern that allow debris to flow freely to the outside. Ideal for helping you stay surefooted on the slippery indoor surfaces often found in industries such as food manufacturing.

## About the 5171

Name AntiMatter

Leather Type PU Coated

Construction Cement

Insole Swen-Flex®

Shank None

Last 305

Outsole CrossGrip - Black

Non-Marking Yes

Defined Heel No

Country of Origin Made in Vietnam

Safety Rating CSA Grade 1, ESR Rated, PR, ASTM F2413-18, F/I/C, EH PR, ASTM F3445-21, SR
